Introduction

Boa-Franc, G.P., hereafter "Boa-Franc", offers the present warranty program on all prefinished Mirage flooring manufactured after June 1st, 2017 and installed and maintained in accordance with the manufacturer's guidelines.

Through this program, Boa-Franc guarantees the original purchaser that every category of prefinished Mirage hardwood floors respects Mirage and industry standards. This warranty program applies solely to residential and commercial installations, excluding heavy commercial use.

This warranty cannot be transferred to any subsequent buyer.

Owner and installer responsibilities

Hardwood is a natural material that possesses certain unique characteristics. Mirage flooring is manufactured in accordance with the highest standards of quality. Standard trade practice allows for up to a 5% margin of error for natural imperfections and manufacturing defects.

The following requirements are the responsibility of the floor's owner, even if the owner is absent at time of installation:

- > Prior to installation, the installer and owner must ensure that the work environment and subfloors meet or even exceed minimal specifications listed in the selected Mirage product's installation guide.
- > Prior to installation, the installer and owner should conduct a final inspection of grade, color, manufacturing and finish quality of boards to ensure that the floor conforms to purchased product.
- > During installation, the installer should not use boards that raise doubts about grade, color, manufacturing quality or finish. Boa-Franc will replace only defective boards, installed or not, exceeding the 5% margin of error allowed by the industry.
- > Boa-Franc shall in no case be liable for installer's lack of judgment or poor quality of installation.
- > Once installed, any board is considered as having been accepted by installer and owner, even if owner is absent at time of installation.

Exclusions due to certain inherent properties of wood

Wood expands and contracts according to variations in humidity. Even if flooring is properly installed, narrow gaps and slight distortions can occur. These natural occurrences are excluded from the present warranty.

Moreover, exposure to light alters the color of all wood species.

Flooring made from low-hardness wood species is not recommended for commercial use.

Manufacturer's warranty

Boa-Franc guarantees the original purchaser that its prefinished Mirage hardwood floors are free of any manufacturing defects, including staining and finish, exceeding the 5% margin of error allowed by the industry.

Boa-Franc guarantees that the product will remain free from defects in milling and dimension when used under recommended environmental conditions.

Structural lifetime warranty

Boa-Franc guarantees the original purchaser a lifetime warranty on the structure of the floorboards. The structural warranty is valid if recommended environmental conditions are met, including maintaining a relative humidity level between 25% and 70% in the case of Mirage Engineered, except for floating installation which requires a relative humidity maintained within a range of 30%-60%. In the Engineered 6-1/2" (1/2" thick), Maple and Hickory are excluded from this installation method.

For Mirage Classic and Lock flooring, the relative humidity must always be maintained within a range of 30%-60%. Moreover, subfloor pre-installation and humidity level must meet the requirements specified in the selected Mirage product's installation guide.

Finish warranty

Boa-Franc guarantees the original purchaser that the Nanolinx™HD and DuraMatt™ finishes applied on its Mirage prefinished hardwood floor will not wear through or separate from the wood for a period of:

- > Thirty-five (35) years from the date of purchase, when used under normal residential traffic conditions;
- > Three (3) years from the date of purchase, when used under light commercial conditions;
- > Five (5) years from the date of purchase, on Nanolinx™ Commercial finish exclusively, when used under commercial conditions, excluding heavy commercial use.

Surface wear must be readily visible and cover at least ten percent (10%) of the total flooring surface area.

Structural warranty exclusions

- Installation of Mirage Classic flooring over a radiant heating system (Mirage Engineered and Mirage Lock technologies are recommended for this type of installation)
- Installation of Hickory and Jatoba floors from Mirage Engineered technology and Hickory floors Mirage Lock technology over a radiant-heated subfloor

> All minor expansion or contraction of floorboards attributed to the inherent properties of hardwood, as seasonal climate changes and maintaining normal environmental conditions will correct these natural variations.

> Structural and finish warranty on Mirage flooring in leased residential units is limited to ten (10) years.

Finish warranty exclusions

> Gloss variation and color variation is excluded, as these are natural occurrences.

> All damage (e.g. impact marks, dents, scratches or abnormal wear) caused by, but not limited to, the following:
